**Subject:** Re: Rate Study

The request from the Hopi Tribe is interesting because they do not operate a water system on Hopi.

**Subject:** Rate Study

Hopi FMCV has requested RCAC's assistance in completing a Drinking water rate study for their PWS. This study will allow FMCV to establish proper billing for residents, businesses and large customers ( BIA school and Health Center). Future goals of metering all customers will benefit from the results too. Can you approve 40 hours of E9 funding to allow RCAC to assist FMCV in this valuable study ? I look forward to coordinating this project with all concerned.

If you have any questions or need further information, please do not hesitate to contact me.
